

MGCSDC - Combination Sensor/Driver for Circular Fittings

AV421201 - AV421202

Description

The MGCSDC range of microwave motion sensors with inbuilt driver are compact making them ideal for fixing within most LED ceiling lights. Available with on/off sensor function or 3 step dimming capability.

Environment

Indoor

Installation

Designed to be used with existing fitting

Application

For use in existing fittings

5YR

Warranty

IP20

Protection

General Data

- Automatic switching and dimming based on motion and light level
- Constant current can be set via DIP switch
- Detection area, time delay and daylight threshold can be precisely set via DIP switch
- Integration of microwave motion sensor, daylight sensor and LED power supply.
- Detection area up to 6 meters.

Product Variants

Product Code	Description	Dimensions (mm)
AV421201	350/550/600/700ma 22-42V combi sensor	82x27.25
AV421202	350ma 18W 28-52V combi sensor	68x28.5
